## ***Water 'N Kids and Boats 'N Kids Pamphlets and Related Materials***

The Auxiliary National Supply Center (ANSC) has available inventories of the *Water 'N Kids* Pamphlet (ANSC 3008), *Boats 'N Kids* pamphlet (ANSC 3009) and a poster for the *Water 'N Kids* course (ANSC 3510). Although these courses have been superseded by the new *Boats, Water, 'N Kids* course, many flotillas have remaining inventories of these courses and may benefit from these materials.

At the recent NACON, Auxiliarists asked that these materials not be recycled immediately to provide flotillas with the opportunity of placing orders. These orders numbers are not on the newer forms, but can be written in for those with interest.

If your flotilla intends to present these courses, please request materials promptly. Ultimately, these materials will be recycled, so get your order in now!
