BOATING SAFELY & BOATING SKILLS AND SEAMANSHIP

REPRINTED

Both of these popular course texts have been reprinted. There is little changed in either textbook so instructors should feel free to 'mix' the present and new textbooks in a class.

BOATING SAFELY changes consist of:

1. A new cover.
2. On the back cover is an advertisement for our other courses.
3. A new Vessel Safety Check invitation.
4. A new recruitment invitation.
5. A Float Plan is included.
6. Numerous small corrections are scattered throughout the text but have no significant impact on the content.
7. A different grade of paper has been used which will make it easier for students to write on the pages.

BOATING SKILLS AND SEAMANSHIP changes consist of:

1. On the back cover is an advertisement for our other courses.
2. A new Vessel Safety Check invitation.
3. A new recruitment invitation.
4. A Float Plan is included.

There is NO change to the *Student Guide*

Shipment of these texts will commence as supplies of the older printing are exhausted.
